

## ZOOLORETTO – CHRISTMAS TREE

Expansion  
for 2 to 5 players:

May only be played  
with Zooloretto!

*This expansion is only allowed to be played on Christmas.*

*Recommendations for the combination of several expansion with the basic game can be found on: [www.zooloretto.com](http://www.zooloretto.com)*

**Preparation:** Place the enclosure with the christmas tree face up in the middle of the table.

**Playing the game:** Please use the same rules as for Zooloretto with the following exceptions: The **first** player, to fill his **6-space** enclosure gets the christmas tree enclosure as a bonus\*. He takes it from the middle of the table and places it below his zoo board, near his barn. It remains with this player until game

end. The player may place no tiles in this enclosure.

If the owner puts 1 coin on this enclosure he **afterwards** draws up to 3 tiles from the pile. If he likes he may place one **directly in his zoo**. Shuffle the remaining tiles back in the pile. He may only do this **once** in the game. The pile with the red disc is not allowed to be touched. The coin remains there until the end of the game and is not involved in the scoring.

\*When you play with the standard gorilla, polar bear or other similar expansions, the first player to fill their 6-space enclosure may choose which tile to take. Other players choose from remaining tiles when they fill their own 6-space enclosure.
