Preparation: Place the Grizzly enclosure face-up in the middle of the table.

Playing the game: Please use the same rules as for Zooloretto with the following exceptions: the **first player**, who fills his **6-space enclosure**, takes the enclosure with the Grizzly as a bonus*. He takes it from the middle of the table and places it below his zoo board, near his barn. The Grizzly enclosure remains with this player until the end

of the game. The player may place no tiles in the Grizzly enclosure.

When a player selects "Discard a tile" as a money action, he can discard 1 animal for 1 coin **or** all animals of one type for 2 coins from his barn. This is possible only once in the game. The player puts the coins on the Grizzly enclosure and they remain there until the end of the game. They are not considered during scoring.

*If Grizzly is played with Gorilla, Polar Bear, and/or other similar expansions, the players filling their 6-space enclosures may select the Gorilla, Grizzly, Polar Bear, or similar enclosures in any order they want.
