**Preparation:** Place the enclosure with King K. face up in the middle of the table.

**Playing the game:** Use the same rules as for Zooloretto with the following exceptions:  
The **first** player, to fill his **6-space** enclosure gets the King K. enclosure as a bonus\*. He takes it from the middle of the table and places it below his zoo board, in the vicinity of the barn. The King K. enclosure

remains with this player until game end. The player may place no tiles in the King K. enclosure.

King K. allows a player to discard a tile from a delivery truck (out of the game), as a money action. This costs 1 coin, and may be done twice during the game. Keep track of usage by placing the spent coins on the King K. enclosure. Coins remain there until the end of the game and are not involved in the final scoring.

\*When you play with the standard gorilla, polar bear or other similar expansions, the first player to fill their 6-space enclosure may choose which tile to take. Other players choose from the remaining tiles when they fill their own 6-space enclosure.
