Preparation: Place the enclosure with the iberian lynx face up in the middle of the table.

Playing the game: Use the same rules as for Zooloretto with the following exceptions:
The **first** player, to fill his **6-space** enclosure gets the lynx enclosure as a bonus*. He takes it from the middle of the table and places it below his zoo board,

in the vicinity of the barn. The lynx enclosure remains with this player until game end. The player may place no tiles in the lynx enclosure.

At the end of the game after the last truck has been taken and before scoring the owner of the Lynx enclosure may carry out **one** money action. He must pay the cost for the action.

*When you play with the standard gorilla, polar bear or other similar expansions, the first player to fill their 6-space enclosure may choose which tile to take. Other players choose from the remaining tiles when they fill their own 6-space enclosure.
