Preparation: Place the Octopus enclosure face-up in the middle of the table. **Playing the game:** Please use the original rules with the following exceptions: the **first player** who fills his **6-space enclosure** (Zooloretto) or places the **sixth tile** in one of his **basins**, takes the enclosure with the Octopus as a bonus* and places it below his zoo board, near his barn (Zooloretto) or near his water zoo board (Aquaretto). He immediately earns

4 coins, which he takes from the bank and must predict the player with the most points at the end of the game. If he is right, nothing happens. Otherwise he must pay back 2 coins. For each coin he cannot pay back he gets -1 point. Afterwards - as usual - the player with the most points is the winner. *The Octopus enclosure remains with this player until the end of the game. The player may place no tiles in the Octopus enclosure.*

*If Octopus is played with Grizzly, Polar Bear, and/or other similar expansions, the players filling their 6-space enclosures may select these enclosures in any order they want. If played with Aquaretto the player earns also a coin as usually.
